Huck Undergraduate Visiting Research Scholar
Call for Applications

Become a Huck Undergraduate Visiting Research Scholar and attend the Life Sciences Symposium at Penn State, May 18th, 2020.

This one-day symposium showcases the wide array of interdisciplinary life sciences research at Penn State, and is a great opportunity to present your research, jump start your graduate career, and determine if you want to become part of life sciences research at Penn State. To learn more about graduate degree programs supported by the Huck Institutes of the Life Sciences: www.huck.psu.edu/graduate-programs.

We are seeking applications from current junior and senior undergraduates who will be applying to graduate school in Fall 2020-21.

The Huck Institutes of the Life Sciences at Penn State will reimburse accepted Undergraduate Visiting Research Scholars for travel and provide accommodations for participation in the annual Penn State Life Sciences Symposium. At the symposium, Huck Undergraduate Visiting Research Scholars will be provided opportunities to explore life sciences research labs, centers of excellence, and core instrumentation facilities; meet with our world-class faculty; learn about life sciences graduate programs, and network with the dynamic life sciences research community. Read more about the Life Sciences Symposium at https://www.huck.psu.edu/resources/students/life-sciences-symposium/life-sciences-symposium-2020.

To apply: submit a 1-2 page description of your research experience, interests and career goals, and an unofficial transcript. You also have the option of submitting a 500-word poster abstract of your research (not required). All applications may be submitted via e-mail to dmc6@psu.edu

The deadline for Undergraduate Research Scholar applications is March 27th, 2020.
