

The Huck Institutes of the Life Sciences

SABBATICAL FELLOWSHIP FOR DISTINGUISHED COLLEAGUES

The Huck institutes of the Life Sciences offers sabbatical fellowships for outstanding faculty, people from industry, and non-governmental organizations, that are interested in exploring new lines of inquiry and investing in a longer-term, potentially transformational project with faculty and graduate students associated with one of the Huck Institutes Centers of Excellence:

<https://www.huck.psu.edu/content/research>

Centers are focused in the broad areas of Genomic Science, Infectious Disease Dynamics, Plant Biology, Ecology and Neurosciences with additional areas in Metabolomics, Microbiome, Reproductive Biology and Health, and Chemical Ecology. Fellows are welcome to stay for periods that range from one month to a full academic year. In some circumstances, where stipend support is not available from a home institution or through a grant, financial support can be provided up to a maximum of \$30,000 per semester to help offset local housing, transportation, or incidental expenses (reimbursed monthly) or to cover fees to utilize one of the ten Huck instrumentation facilities.

Fellows will be provided with office space and will be expected to be actively involved with a Center within The Huck Institutes, have an open invitation to weekly lecture series, and campus membership benefits, such as library access. In exchange, we encourage Fellows to consider running an informal graduate class for students and postdoctoral workers in the center and giving a talk or two about their research.

Potential fellows should submit a CV along with the following one-page summary of what they wish to achieve and the Center they would like to work with to Kimberly Ripka (e-mail: kab5@psu.edu).

Requestor contact information:

Name and Title	Phone	Email
University or Employer Name	Address	City, State, Country

Sabbatical time period with Penn State’s Huck Institutes:

Start Date	End Date

Huck Institute Center you would like to work with:
Huck Institute faculty member you would like to work with:

Brief summary of what you would like to achieve:

Please indicate if you need other support:

Financial Support – offset local housing and/or transportation	Huck Instrumentation Facility fees	Assistance finding local housing	Assistance finding local schools	Visiting Scholar Visa Invitation
